

Fan Controller

Fan Controllers together with the VFD option control the dust collector system energy efficiently. The airflow is continuously controlled and fixed on a current arranged value.

Safe Change HEPA Housing

- Versatile modular system
- Robust and strong construction
- Self-adjusting filter sealing mechanism
- Available powder coated or stainless steel
- Differential manometer connection port for each stage filter
- Single or multiple filter stages with overall filter heights
- Optional aerosol injection and particle measurement connection

UVDC High Vacuum Dust Collectors

UVDC Ulpadust Vacuum Dust Collectors are produced applications for high vacuum and pressurized systems for central vacuum systems, pneumatic transport and bin venting.

Accessories;

- BIBO & continous liner discharge for hazardous dusts
- Explosion vents
- Special discharge options
